**Section 3. Exceptions, Testing, Repairs, Maintenance, and Fire Watch Requirements**

Nothing in this Ordinance shall prohibit actions immediately necessary to protect human life or prevent an imminent threat of serious bodily injury.

Authorized inspection, testing, maintenance, repair, alteration, servicing, or impairment of a fire alarm system or fire protection system may be performed when conducted in accordance with the New Jersey Uniform Fire Code and other applicable laws and regulations.

Prior to beginning any inspection, testing, maintenance, repair, alteration, servicing, construction activity, or other work involving or affecting a fire alarm system or fire protection system that may cause an alarm activation or transmit a false or unnecessary alarm, the responsible party, property owner, property manager, contractor, service technician, or their authorized designee shall place the affected alarm system on test with the appropriate alarm monitoring company, communications center, or other entity responsible for receiving alarm signals.

The alarm system shall be placed on test before any such work begins and shall remain on test for the duration of the work.

The responsible party shall ensure that all persons performing work affecting the fire alarm or fire protection system are aware that the system has been placed on test.

During any period in which a fire alarm system or fire protection system is placed on test, disabled, impaired, disconnected, or otherwise not fully operational, the owner, occupant, responsible party, property manager, contractor, or their authorized designee shall be responsible for establishing and maintaining an appropriate fire watch for the affected premises.

The fire watch shall be maintained in accordance with the New Jersey Uniform Fire Code and any requirements or directions established by the Garfield Fire Official, or their authorized designee.

Persons assigned to a fire watch shall:

1. Monitor the affected building, structure, premises, or area for evidence of fire, smoke, or other emergency conditions;
2. Maintain an effective means of immediately contacting emergency services;
3. Remain available and attentive to conditions within the affected premises;
4. Immediately notify emergency services upon discovery of fire, smoke, or another emergency condition; and
5. Continue the fire watch until the affected fire alarm or fire protection system has been fully restored to normal operating condition or until otherwise authorized by the Garfield Fire Official or their authorized designee.

Upon completion of all inspection, testing, maintenance, repairs, alterations, servicing, or other work, the responsible party shall ensure that the fire alarm and fire protection systems are properly restored, returned to normal operating condition, and removed from test status with the applicable alarm monitoring company or communications center.

Failure to place a fire alarm or fire protection system on test prior to work that results in a false or unnecessary alarm transmission, or failure to establish and maintain a required fire watch while a system is impaired or on test, shall constitute a violation of this Ordinance.

#### **Section 4. Fire Alarm or Fire Protection System Impairment**

Whenever a required fire alarm system or fire protection system is out of service, disabled, impaired, or otherwise incapable of performing its intended function, the owner, occupant, or responsible party shall comply with all applicable notification, impairment, fire watch, and restoration requirements established by the New Jersey Uniform Fire Code.

The Garfield Fire Official or their authorized designee may establish additional reasonable fire safety measures when necessary to protect occupants, firefighters, property, or the general public during the impairment.

#### **Section 5. Violations and Penalties**

Any person, firm, corporation, business entity, property owner, occupant, contractor, alarm company, service provider, or other responsible party who violates any provision of this Ordinance shall be subject to enforcement and penalties permitted by the New Jersey Uniform Fire Code, including N.J.A.C. 5:70-3.2, Section 901.8, concerning the removal of or tampering with fire protection equipment, and N.J.A.C. 5:70-2.12, as amended or supplemented from time to time.

Where a violation results in the disabling of, interference with, or decrease in the effectiveness of a fire alarm or fire suppression system, penalties may be assessed in accordance with the applicable provisions of N.J.A.C. 5:70-2.12.

Failure to comply may result in penalties being issued to the property owner. First occurrence may be subject to a penalty of \$125. Second occurrence may be subject to a penalty of \$250. Each subsequent occurrence will result in a penalty of \$500 being issued to the property owner.

Each day that an unlawful impairment or violation continues may constitute a separate offense where permitted by applicable law.

Nothing contained herein shall prevent the assessment of any additional penalties, dedicated penalties, compensatory penalties, costs, or other remedies authorized under the New Jersey Uniform Fire Code or other applicable law.

**Section 6. Enforcement**

This Ordinance may be enforced by the Garfield Fire Official, authorized members of the Garfield Fire Prevention Bureau, Garfield Fire Department, Garfield Police Department, or any other municipal official or agency authorized by law.

Nothing in this Ordinance shall limit the authority of the Garfield Fire Official or other authorized enforcing agency under the New Jersey Uniform Fire Safety Act, New Jersey Uniform Fire Code, or any other applicable law or regulation.

**Section 7. Responsibility of Property Owners and Responsible Parties**

The property owner and responsible party shall be responsible for ensuring compliance with the provisions of this Ordinance.

The use of an alarm company, maintenance company, contractor, service technician, property manager, tenant, or other third party shall not relieve the property owner or responsible party from ensuring that the fire alarm and fire protection systems are properly maintained, placed on test when necessary, restored to service, and protected by an appropriate fire watch when required.

**Section 8. Severability**

If any section, subsection, paragraph, sentence, clause, phrase, or provision of this Ordinance is determined by a court of competent jurisdiction to be invalid or unenforceable, such determination shall not affect the validity of the remaining provisions, which shall remain in full force and effect.

**Section 9. Repealer**

All ordinances or portions of ordinances inconsistent with the provisions of this Ordinance are hereby repealed to the extent of such inconsistency.

**Section 10. Effective Date**

This Ordinance shall take effect upon final passage, approval, and publication as required by law.

AUTOMATED LICENSE PLATE RECOGNITION SYSTEMS ON MUNICIPAL  
PROPERTY AND WITHIN MUNICIPAL RIGHTS-OF-WAY IN THE CITY OF  
GARFIELD**

**WHEREAS**, the City of Garfield recognizes the importance of utilizing technology in a manner that promotes public safety while protecting the privacy, security, and property interests of residents, businesses, visitors, and motorists; and

**WHEREAS**, Automated License Plate Recognition (“ALPR”) technology is capable of capturing, analyzing, storing, and transmitting vehicle and license plate information and may generate vehicle-location data; and

**WHEREAS**, the State of New Jersey, through the Office of the Attorney General, has established statewide requirements governing the use of ALPR technology and ALPR-generated data by law enforcement agencies, including Attorney General Law Enforcement Directive No. 2022-12 and any successor directives, guidelines, policies, or orders; and

**WHEREAS**, the City Council finds that the installation and operation of privately controlled ALPR systems on municipal property or within municipal rights-of-way should be regulated to ensure appropriate control over municipal property and public rights-of-way, avoid unauthorized or conflicting uses of municipal infrastructure, and protect public safety and privacy interests; and

**WHEREAS**, the City Council further recognizes that law enforcement agencies require the ability to deploy and utilize ALPR technology for legitimate public safety and law enforcement purposes in accordance with applicable law and directives; and

**WHEREAS**, the City Council further recognizes that ordinary consumer security cameras used by homeowners and businesses for general security purposes are distinct from ALPR systems and should not be prohibited by this Ordinance;

**NOW, THEREFORE, BE IT ORDAINED** by the Mayor and Council of the City of Garfield, County of Bergen, State of New Jersey, as follows:

Any such installation shall be subject to the voluntary consent of the lawful property owner or other person legally authorized to grant such permission, unless otherwise authorized by law.

F. Any ALPR System installed pursuant to this Section shall be operated in accordance with all applicable federal and State laws, regulations, New Jersey Attorney General directives, guidelines, policies, orders, and applicable Garfield Police Department policies.

**CITY OF GARFIELD  
BERGEN COUNTY, NEW JERSEY  
ORDINANCE NO.: 3167**

-----

**AN ORDINANCE AMENDING SECTION 226-22 OF CHAPTER 226 (“VEHICLES AND TRAFFIC”), ARTICLE V (“RESIDENTIAL PERMIT PARKING”) OF THE CODE OF THE CITY OF GARFIELD, TO REVISE THE PROCEDURE FOR DESIGNATING RESTRICTED RESIDENTIAL PERMIT PARKING ZONES**

**WHEREAS**, the City of Garfield is authorized under N.J.S.A. 39:4-197(1)(f) to regulate, by ordinance, the parking of vehicles on streets within the City, provided that such regulation addresses special conditions existent in the City; and

**WHEREAS**, Section 226-22 of the Code presently authorizes the Chief of Police, or the Chief’s designee to prohibit parking on certain residential streets upon findings disclosed by an engineering and/or traffic study; and

**WHEREAS**, the Mayor and Council have determined that the designation of Restricted Residential Permit Parking Zones should instead be made by ordinance of the Mayor and Council upon the written recommendation of the Police Department, without requiring a formal engineering or traffic study or report as a precondition to that recommendation, while leaving administration of resident, visitor, business, and temporary permits with the Police Department; and

**WHEREAS**, the Garfield Police Department has proposed objective standards for the Chief of Police, or the Chief’s designee to apply in determining whether to recommend a street for designation, intended to ensure that such designations address an identifiable parking problem caused or significantly contributed to by persons who do not reside on the street, rather than resident vehicle volume or the unavailability of off-street parking alone;

**NOW, THEREFORE, BE IT ORDAINED** by the Mayor and Council of the City of Garfield, County of Bergen, State of New Jersey, as follows:

**Section 1.** Section 226-22 of Chapter 226 (“Vehicles and Traffic”), Article V (“Residential Permit Parking”) of the Code of the City of Garfield is hereby amended and restated in its entirety to read as follows:

**§ 226-22. Designation of Restricted Residential Permit Parking Zones; Issuance of Permits.**

**A. Designation of Restricted Residential Permit Parking Zones.**

(1) Recommendation of the Police Department. No street or portion of a street exclusively or primarily serving residential land uses shall be designated as a Restricted Residential Permit Parking Zone unless the Chief of Police, or the Chief’s designee, has first submitted a written recommendation to the Mayor and Council making each of the findings required by paragraph (2) of this subsection. The recommendation need not take the form of, and is not required to be supported by, a formal engineering or traffic study or report. The Chief of Police, or the Chief’s designee, may base the required findings on the personal knowledge and observations of Department personnel, resident parking permit records, requests or complaints received from residents, and any other information the Department considers reliable.

(2) Required findings. A recommendation under paragraph (1) of this subsection shall include written findings, supported by the information described in paragraph (1), that each of the following conditions is met:

(a) Parking saturation. At least 85% of the available legal on-street parking on the affected street or portion thereof is regularly occupied during the hours proposed for the restriction, based

on Police Department observations conducted on at least three separate days, at representative times within those hours.

(b) Resident parking demand. Residents of the affected street or portion thereof regularly rely on available on-street parking, as shown by the number of active resident parking permits issued for that street, the availability of driveways or other off-street parking to those residents, and Police Department observations of actual overnight parking conditions. The existence of a resident parking permit for a vehicle shall not by itself establish that the permit holder relies on on-street parking where that resident has access to, and regularly uses, a driveway or other off-street parking.

(c) Outside-source impact. Parking by persons who do not reside on the affected street or portion thereof, attributable to an identifiable source such as a nearby business, school, public transportation facility, municipal facility, commuter activity, or similar source, is significantly contributing to the condition described in subparagraph (a). This finding may be based on Police Department observations, resident parking permit records, resident complaints, parking patterns, or other reasonably available information.

(3) Available legal on-street parking; measurement. For purposes of paragraph (2)(a), “available legal on-street parking” means curb space on which a vehicle may lawfully be parked, excluding driveways and driveway aprons, fire hydrants, intersections, crosswalks, bus stops, and other areas in which parking is prohibited by law or municipal ordinance. On a street without marked parking spaces, the Police Department may reasonably estimate the number of vehicles that can legally be parked along the available curb space.

(4) Limitations. The number of vehicles registered to, or parking permits held by, residents of a street, or the unavailability of sufficient off-street parking to those residents, shall not by itself satisfy paragraph (2)(b) or otherwise support a recommendation under this subsection. A complaint or request from a resident may initiate the Police Department’s review of a street under this subsection but shall not, standing alone, support a recommendation under this section.

(5) Action by the Mayor and Council. Upon receipt of a recommendation satisfying paragraphs (1) through (4) of this subsection, the Mayor and Council may, by ordinance introduced and adopted in the manner provided by law, designate the affected street or portion thereof as a Restricted Residential Permit Parking Zone and prohibit parking thereon, except by permit issued under Subsections C and D of this section, during such hours as the designating ordinance shall specify. Nothing in this section requires the Mayor and Council to adopt a designation recommended by the Police Department, and the Mayor and Council may decline to adopt, or may modify, a recommended designation in the exercise of their legislative discretion.

**B. Signage; Municipal Engineer certification.** Following adoption of an ordinance designating a Restricted Residential Permit Parking Zone, the Police Department shall cause appropriate signs to be posted on the affected street or portion thereof, prohibiting all parking thereon during the hours specified in the designating ordinance except by permit. No such restriction shall be enforced until the Municipal Engineer has certified, under seal, that the signage conforms to the Manual on Uniform Traffic Control Devices for Streets and Highways.

**C. Permits.** Permits authorizing parking within a Restricted Residential Permit Parking Zone shall be issued only under the following terms and conditions:

(1) Resident permits. To persons who reside on the street or portion thereof upon which parking is restricted, for every vehicle owned by such person and registered in the State of New Jersey.

(2) Visitor permits. To persons who are visitors of persons who reside on the street or portion thereof upon which parking is restricted, provided that not more than three such permits shall be

issued and outstanding at any one time for the use of visitors of any one dwelling unit on that street or portion thereof.

(3) Business permits. To persons who regularly do business with, or provide services at the residence of, persons who reside on the street or portion thereof upon which parking is restricted, provided that (a) not more than two such permits shall be issued and outstanding at any one time for any one dwelling unit, (b) the applicant shall provide the name and address of the resident to be served and a brief description of the business or service provided, and (c) such permits shall be valid only during the hours reasonably necessary to perform the business or service. This subsection shall not apply to service or delivery vehicles making service calls or deliveries, which shall not be subject to the parking prohibitions and restrictions of this article.

**D. Temporary (one-day) permits.** On the application of a person who resides on a street on which parking is restricted under this section, the Chief of Police, or the Chief's designee, may issue a permit valid for one day and for no more than eight hours on that day, upon a showing by the applicant that, during the hours for which the permit is sought, the applicant's residence will be used in a manner consistent with its residential character and with municipal ordinances and regulations restricting its use to residential purposes, and that visitors to the residence will not otherwise be able to park in the immediate vicinity without violating the restrictions imposed by this article. The Chief of Police, or the Chief's designee shall issue such a permit upon approving the application and finding that its issuance will not unduly impair traffic safety during the period of its validity, and may limit the streets or portions of streets for which the permit is valid. The total number of such permits issued and outstanding at any one time shall not exceed 35% of the total number of parking spaces on the street or portion thereof for which they are valid.

**E. Records.** The City Clerk shall maintain a file for each Restricted Residential Permit Parking Zone designated under this section, containing the Police Department's written recommendation and the ordinance adopted by the Mayor and Council.

**Section 2.** Except as expressly amended herein, all other subsections of Section 226-22 and all other provisions of Article V of Chapter 226 shall remain in full force and effect.

**Section 3.** If any section, subsection, sentence, clause, or phrase of this ordinance is for any reason held to be unconstitutional, invalid, or otherwise unenforceable by a court of competent jurisdiction, such holding shall not affect the validity of the remaining portions of this ordinance.

**Section 4.** All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed to the extent of such inconsistency.

**Section 5.** This ordinance shall take effect upon final passage and publication as required by law.

**AFFIRMING THE POSITION OF THE MAYOR AND COUNCIL OF THE CITY OF  
GARFIELD REGARDING THE CONTINUED PURSUIT OF THE POTENTIAL  
ACQUISITION OF REAL PROPERTY LOCATED BETWEEN RAY STREET AND  
GARWOOD COURT EAST**

**WHEREAS**, the Mayor and Council of the City of Garfield (“City”) have previously considered the potential acquisition of certain real property located between Ray Street and Garwood Court East; and

**WHEREAS**, at a Special Meeting held on July 9, 2026, the Mayor and Council adopted Resolution R-359-26, “Authorizing the City Attorney and City Manager to Negotiate a Term Sheet for the Purchase of a Strip of Real Property Located Between Ray Street and Garwood Court East”; and

**WHEREAS**, Resolution R-359-26 was adopted by a vote of 3-2, with Councilman Joseph Delaney and Councilman Richard Rigoglioso voting no; and

**WHEREAS**, subsequent to the July 9, 2026 meeting, the City Attorney continued discussions concerning the potential acquisition and, on August 11, 2026, contacted counsel for the property owner regarding the City's interest in the property; and

**WHEREAS**, following discussions between the City Attorney and the property owner's attorney, the property owner's attorney advised that the owner was not interested in further discussions concerning the proposed transaction at that time; and

**WHEREAS**, the City Attorney subsequently advised the Mayor and Council on September 21, 2026 of potential alternatives for pursuing the City's objectives, including the potential acquisition of the two lots located behind the rows of houses between Garwood Court East and Ray Street, either through a negotiated purchase or, if necessary, through condemnation proceedings, as further discussed in the City Attorney's correspondence to the Mayor and Council; and

**WHEREAS**, the City Attorney further advised that the municipal appraisal associated with the property values the subject property at \$750,000; and

**WHEREAS**, should the Mayor and Council determine to proceed with the potential acquisition of the two lots, the City would need to consider the appropriate method of funding the acquisition, which would require a majority 4-person affirmative vote for bonding, subject to all applicable legal and financial requirements; and

**WHEREAS**, the Mayor and Council recognize that the City has not entered into a purchase agreement for the property, has not authorized the filing of any condemnation action, and has not authorized the issuance of debt or the expenditure of funds for the acquisition of the property; and

**WHEREAS**, the Mayor and Council now wish to formally memorialize their respective positions as to whether the City should continue pursuing the potential acquisition of the property, based upon the information presently available to the governing body; and

**WHEREAS**, the purpose of this Resolution is solely to obtain and memorialize the current position of the Mayor and Council concerning whether the City should continue pursuing the potential acquisition and to provide direction for consideration of any future action; and

**WHEREAS**, any future purchase, contract, condemnation proceeding, appropriation, financing, bond issuance, or other binding action concerning the property shall require such additional action and approvals as may be required by law and shall not be deemed authorized by this Resolution;

**WHEREAS**, Resolution R-466-26 was introduced and rejected at the September 22, 2026 meeting of the Mayor and Council and is being brought before the Mayor and Council again at the request of the Mayor for further consideration;

**NOW, THEREFORE, BE IT RESOLVED** by the Mayor and Council of the City of Garfield, County of Bergen, State of New Jersey, as follows:

1. The Mayor and Council are hereby asked to state their respective positions as to whether the City of Garfield should continue pursuing the potential acquisition of the real property located between Ray Street and Garwood Court East, including the potential acquisition of the two lots located behind the rows of houses, as discussed by the City Attorney.
2. A vote in favor of this Resolution shall indicate that the member supports the City continuing to pursue the potential acquisition and further investigating and evaluating available options for accomplishing such acquisition.
3. A vote against this Resolution shall indicate that the member does not support the City continuing to pursue the potential acquisition at this time.
4. This Resolution shall not constitute authorization or approval of the purchase or acquisition of the property, authorization to enter into a purchase and sale agreement or other binding agreement, authorization to commence condemnation proceedings, authorization to issue bonds or incur debt, authorization of any expenditure, or any other legally binding commitment by the City.
5. Nothing herein shall prevent the City Attorney or City Manager from providing the Mayor and Council with additional information, legal advice, financial information, appraisal information, or other due diligence concerning the property for the purpose of allowing the governing body to consider any future action.
6. Any future action to acquire the property, whether by negotiated purchase, condemnation, or otherwise, shall be subject to separate consideration and approval by the Mayor and Council and compliance with all applicable statutory, regulatory, financial, and municipal requirements.

**CITY OF GARFIELD  
BERGEN COUNTY, NEW JERSEY  
RESOLUTION R-538-26**

**CONSENT AGENDA**

**RESOLUTION BY:**

**SECONDED BY:**

**SUPPORTING THE PROPOSED PURCHASE AND INSTALLATION OF WATER  
VENDING MACHINES**

**WHEREAS**, the Mayor and City Council of the City of Garfield (“City”) have previously discussed the concept of purchasing and installing water vending machines that would allow residents to purchase water directly from the City; and

**WHEREAS**, at the January 13, 2026 Mayor and Council meeting, City Manager/City Clerk Erin Nora Delaney presented various water vending machine options, including information regarding available companies, machines, and associated pricing; and

**WHEREAS**, following that presentation and discussion, the Mayor and City Council selected a preferred vendor and preferred water vending machine for further consideration; and

**WHEREAS**, at the March 10, 2026 Mayor and Council meeting, the City Manager advised the Mayor and Council that the City's Department of Public Works (“DPW”) and Municipal Engineer had expressed concerns and/or reservations regarding the placement of water vending machines outside of City buildings, including, but not limited to, potential liability concerns, minimum required operating temperatures, weather conditions, and other operational considerations; and

**WHEREAS**, as a result of those concerns, the possibility of locating the water vending machines inside City-owned buildings was discussed as an alternative to exterior installation; and

**WHEREAS**, the matter was further discussed at the May 12, 2026 Mayor and Council meeting, at which time the City Manager advised the Mayor and Council that, due to the anticipated cost of the proposed machines, she wished to confirm that the necessary votes would be available to authorize the financing/bonding required for the project before the City proceeded any further; and

**WHEREAS**, at that time, the anticipated purchase price was approximately \$11,899.00 per machine, exclusive of shipping; and

**WHEREAS**, the anticipated additional costs included approximately \$320.00 per machine for packing and handling, as well as approximately \$799.00 per machine for exterior and interior wrapping with UV protection and a three-year warranty; and

**WHEREAS**, the foregoing pricing did not include installation costs, which would be an additional expense to the City; and

**WHEREAS**, following the May 12, 2026 meeting, additional questions and considerations concerning the proposed water vending machines and their operation were raised, and the City Manager provided follow-up information and responses by email to the Mayor and members of the City Council; and

**WHEREAS**, notwithstanding the prior discussions and the selection of a preferred vendor and machine, the Mayor and City Council have not obtained the four affirmative votes necessary to proceed with the proposed bonding/financing for the project; and

**WHEREAS**, there are currently insufficient funds within the City's regular operating budget to purchase the proposed water vending machines and pay the associated costs of shipping, packing and handling, protective wrapping/warranty, installation, and any other costs associated with the project; and

**WHEREAS**, the City Manager wishes to obtain clear direction from the Mayor and City Council as to whether the Governing Body remains interested in proceeding with the proposed water vending machine project, understanding that the project would require the City to pursue appropriate financing/bonding; and

**WHEREAS**, if the Mayor and City Council remain interested in pursuing the project, additional steps would be required, including confirmation of the final number and location of machines, final project costs, installation requirements, financing requirements, and any necessary review or recommendations from the City's professionals and/or bond counsel;

**WHEREAS**, Resolution R-467-26 was introduced and rejected at the September 22, 2026 meeting of the Mayor and Council and is being brought before the Mayor and Council at the request of the Mayor for further consideration;

**NOW, THEREFORE, BE IT RESOLVED**, by the Mayor and City Council of the City of Garfield, County of Bergen, State of New Jersey, as follows:

1. The Mayor and City Council are hereby advising that they support pursuing the proposed purchase and installation of water vending machines for use by City residents.
2. The Mayor and City Council acknowledge that the proposed project is not currently funded through the City's regular operating budget and that proceeding with the project would therefore require the City to identify and obtain an appropriate source of financing, including bonding or other financing as may be legally authorized.
3. The Mayor and City Council further acknowledge that the current anticipated cost of each machine is approximately \$11,899.00, exclusive of shipping, packing and handling, protective wrapping/UV protection and warranty, installation, and any other associated costs, and that final project costs remain subject to confirmation.
4. The Mayor and City Council acknowledge that, based upon concerns raised by the City's DPW and Municipal Engineer, the proposed machines may be located inside City-owned buildings rather than outdoors, subject to further review and determination of appropriate locations.
5. If the Mayor and City Council are in favor of continuing to pursue the project, the City Manager is hereby authorized and directed to continue coordinating with the City's professionals and appropriate financing professionals to obtain updated pricing, confirm the proposed locations, determine the total project cost, and prepare the necessary documentation for consideration by the Mayor and City Council.
6. No purchase order, contract, financing commitment, or expenditure shall be authorized pursuant to this Resolution unless and until separately approved in accordance with applicable law and by the appropriate action of the Mayor and City Council.
7. The City Manager shall report back to the Mayor and City Council with the final anticipated project cost and proposed financing requirements prior to any final commitment by the City.
